STUDENT COMMUNITY SERVICE FORM

Guidelines: Service must be performed for a person or organization from which the student receives no compensation (such as pay or grades). Family members may not be the recipients or supervisors of service, nor may students receive hours for extracurricular activities in which they participate. Students may not complete service where they are currently employed. Hours served in past years will not be accepted.

Please take this form to the service location to obtain the supervisor's signature and verify your service. Hours must be approved by the counselor or administration before credit is given.
